Re: Application for Condition Modification to FCU-05-07(a)

Dear Sirs:

We would like to modify the existing conditions of the Conditional Use Permit for the Tutvedt Pit in the West Valley Zoning District. The current conditions prohibit asphalt and concrete batch operations.

We would like to have this condition removed from our Conditional Use Permit, in light of the new definition of "gravel extraction", which was added by resolution 955HE in the Flathead County Zoning Regulations on 03/01/2010.

*Add Section 7.08.025 to the definitions chapter of the regulations to define "Gravel Extraction" to include mining of gravel and, inter alia, the processing of gravel through crushing, screening, **asphalt, wash and concrete plants**, and transportation and stockpiling of materials on gravel mining sites.*

We have completed a Conditional Use Permit Application and attached a Site Map, Area Map and the current Plan of Operation approved through the DEQ Opencut Mining Program. Do not hesitate to contact me with any questions or concerns. I look forward to working with you on this project.

Sincerely,

Rob Koelzer
